PROFESSIONAL SUMMARY

Full Stack Developer with hands on experience in building scalable **web** and **cross platform applications** using **React Native, Next.js, Python** and with **multiple** end to end projects. Skilled developing in **AI driven solutions** including recommendation systems, **RAG pipelines** and computer vision features using models like **BioBERT** and **FLAN-T5**. Strong foundation in data structures and clean architecture, with experience in RESTful APIs and cloud deployment.

EDUCATION

FAST National University of Computer & Emerging Sciences, B.S. Computer Sciences **Aug 2022 - June 2026**
Relevant Courses: Data Structures and Algorithms, Generative AI, Cloud Computing, Software Engineering

EXPERIENCE

Full Stack Developer (Intern) - Innovative Solutions **June 2025 - Aug 2025**
Eventra Application (Live apk) ***React Native, Next.js, MongoDB***

- Developed the Eventra App, **an event management application** enabling users to create, manage, and participate in events.
- Designed intuitive user workflows and enhanced the overall event lifecycle experience with **seamless functionality**.
- **My Role:** Mainly **backend development**, **frontend integration** with APIs and working with third party libraries.

FAST National University of Computer and Emerging Sciences **Aug 2024 - Dec 2024**
Teaching Assistant - Object Oriented Programming

- **Guided 55+** students through core OOP concepts, including classes, objects, inheritance, polymorphism and encapsulation.
- **Assisted students** in designing and implementing efficient OOP based applications while improving their problem solving.

SELECTED PROJECTS

github.com/AsadAnalyst

OutfitOrbit (Final Year Project) (Blog Link) ***React Native, Next.js, Python, Firebase***

- Developed **an AI powered e commerce platform** with secure authentication, featuring personalized outfit recommendations using **machine learning** and a personal wardrobe system. **Integrated chatbot** and virtual try on.
- **My Role:** Lead backend development designed and implemented **RESTful APIs**, authentication flows and database architecture. Handled **API integration** with AI services and performed extensive **API testing** and validation using Postman.

VisionLoop CycleGAN (Built GAN) (Live Huggingface) ***Python, CycleGAN, ResNet, PatchGAN***

- Developed a CycleGAN based image translation system for **sketch-to-photo** conversion using the Sketchy Dataset.
- Implemented **ResNet** generators and **PatchGAN** discriminators for high quality image generation without paired data.
- Achieved **SSIM 0.87** and **FID 42.5**, produced realistic and visually consistent image outputs.

Medical Q&A RAG System (Fine Tuning) (Live Huggingface) ***Python, MIMIC-IV Dataset, BioBERT, FLAN-T5***

- Developed an AI powered medical question answering system using **RAG** with the **MIMIC-IV** clinical dataset.
- Integrated **BioBERT** and **FLAN-T5** to improve medical context understanding and accurate answer generation.
- Achieved around **75% answer relevance accuracy** and **0.78 BERT Score**, ensuring reliable and context-aware responses.

Skillify (Service Marketplace) (Live Link) ***Next.js, ElevenLabs, PostgreSQL, Vercel***

- Built a **full stack service marketplace** connecting customers with skilled providers for **home, web design and app development** services.
- Developed an end to end **booking workflow** post a need, compare providers, confirm a date, **message the provider** and mark the job complete.
- Built an **AI voice agent using ElevenLabs** and integrated it into the website, enabling users to interact with the platform through **voice conversations**.

SKILLS

Languages: C++, **Python**, **SQL**, JavaScript

Frameworks/Technologies: React Native, Node.js, **Next.js**, AWS, Git, **GitHub**, **Oracle**, MySQL, **Firebase**, MongoDB, PostgreSQL, **Fine-Tuning**, Voice Agent, Docker, Data Scraping, **RAG**, Clean Architecture, REST APIs

AWARDS & HONORS

FAST-NUCES	Merit Scholarship in BSCS For Achieving a Provincial Level Position	**2022 - 2026**
BISE-Nawabshah	2nd Position in Nawabshah Division (Intermediate and Secondary)	**2022**
IBA University	Silver Medal in Physics, Science Exhibition	**2020**
Claude Academy	Building Effective Human Agent Teams beta (Certificate)	**2026**
Claude Academy	AI Capabilities and Limitations (Certificate)	**2026**
